

AUTHOR: Nicholas Lorentzen

MILESTONE DEADLINE: 04/19/2019

MILESTONE WORK OVERVIEW:

Create an effective keylogger that is able to store multiple keystrokes. This is needed as certain moves will require the ability to check for multiple key presses.

#	DESCRIPTION	DEPENDENCIES
1	Write keyput.keyput()	
2	Write key.key()	
3	Write key.updateKey()	2
4	Write key.getLength()	2
5	Write key.getNum()	2
6	Write key.getState()	2
7	Write keyput.KeyHandler.keyPressed()	1,2
8	Write keyput.KeyHandler.keyReleased()	1,2
9	Write keyput.createList()	2,1
10	Write keyput.getKeys()	2,1,9
